

Danaher Corporation Announces Second Quarter Results

PRNewswire
WASHINGTON

Danaher Corporation announced today that net earnings for its second quarter ended June 29, 2001 were a record \$94.2 million, 16% above the corresponding 2000 period earnings of \$81.3 million. Diluted earnings per share for the 2001 quarter were \$.63, 12.5% above the comparable \$.56 for the 2000 second quarter. Sales for the 2001 second quarter were \$956.6 million, 7% higher than the \$890.8 million for the quarter ended June 30, 2000.

For the six month period ended June 29, 2001, net earnings were \$176.8 million or \$1.19 per diluted share compared to \$152.8 million or \$1.05 per diluted share for the six months ended June 30, 2000. Record sales of \$1.962 billion for the 2001 six month period were 11.5% higher than the \$1.759 billion reported in 2000.

H. Lawrence Culp, Jr., President and Chief Executive Officer, stated, "We are pleased to report record second quarter financial performance. Although total sales grew over 7%, a worsening domestic economy continued to impact many of our product lines, resulting in a 4.5% core volume decline. Despite this softness, earnings per share grew 12.5%, as cost reduction and containment measures have been aggressively implemented throughout the Company. Cash flow also remains strong, with operating cash flow for the six month period reaching a record \$311 million. As a near-term economic recovery appears unlikely, aggressive cost control will remain in place through the balance of the year, but without sacrificing our key strategic initiatives."

Danaher Corporation is a leading manufacturer of Process/Environmental Controls and Tools and Components. (<http://www.danaher.com/>)

Statements in this release that are not strictly historical may be "forward-looking" statements, which involve risks and uncertainties. These include economic and currency conditions, market demand, pricing, and competitive and technological factors, among others, as set forth in the company's SEC filings.
