

DANAHER CORPORATION TO ACQUIRE X-RITE, INCORPORATED

Washington, D.C., April 10, 2012 - Danaher Corporation (NYSE:DHR) announced today that it has entered into a definitive merger agreement with X-Rite, Incorporated (NASDAQ: XRIT) pursuant to which Danaher will acquire X-Rite by making a cash tender offer to acquire all of the outstanding shares of common stock of X-Rite at a purchase price of \$5.55 per share, for an enterprise value of approximately \$625 million, including debt assumed and net of cash acquired.

X-Rite is a global leader in color measurement technology. The company, which includes design industry color provider Pantone, develops, manufactures, markets and supports innovative color solutions through measurement systems, software, color standards and services. Upon closing X-Rite will be part of Danaher's Product Identification group.

"We are excited about the opportunity to acquire two premier brands in X-Rite and Pantone," said William K. Daniel II, Executive Vice President of Danaher. "Color measurement is an attractive market adjacency to our existing Product Identification businesses. X-Rite's color measurement technologies complement Esko's digital packaging design capabilities to provide customers with a full range of solutions to meet their packaging and design needs. Along with Videojet and Esko, we believe X-Rite and Pantone will further Danaher's leading position in the Product Identification industry and present an attractive value creation opportunity."

The X-Rite Board of Directors has unanimously recommended that X-Rite shareholders accept and tender their shares into the offer. The offer is subject to customary conditions, including tender of a majority of the outstanding shares into the offer (on a fully diluted basis), applicable regulatory approvals and the absence of a material adverse change with respect to X-Rite. Certain shareholders representing approximately 68% of the voting power of X-Rite's outstanding shares intend to tender their shares into the offer. The transaction is expected to be completed during the second quarter of 2012.
