

Danaher Corporation Announces the Completion of the United Power Acquisition

PRNewswire
WASHINGTON

Danaher Corporation announced today that it has completed the previously announced acquisition of United Power Corporation.

United Power, with revenues of approximately \$40 million, designs and manufactures electrical power distribution units and other power quality products used to regulate and condition power in data, telecom, and factory applications.

"United Power Corporation represents an excellent product and technological fit for our existing power quality businesses," remarked George M. Sherman, Danaher's President and Chief Executive Officer. "We now have the ability to offer the customer a broader array of power quality products, particularly for the rapidly expanding data center market."

Danaher Corporation is a leading manufacturer of Process/Environmental Controls and Tools and Components. (<http://www.danaher.com/>)

Statements in this release that are not strictly historical may be "forward-looking" statements, which involve risks and uncertainties. These include economic and currency conditions, market demand, pricing, and competitive and technological factors, among others, as set forth in the company's SEC filings.
