Danaher Corporation Announces Third Quarter Results

PRNewswire WASHINGTON

Danaher Corporation announced today that net income for its third quarter ended September 28, 2001 was \$87.7 million, 5% above the corresponding 2000 amount of \$83.6 million. Earnings per share for the 2001 quarter were \$.59 compared to \$.58 for the 2000 quarter. Sales for the 2001 third quarter of \$901.6 million were 8.6% below 2000 sales of \$986.8.

Net earnings of \$264.6 million, or \$1.78 per share, for the nine month period ended September 28, 2001, were 12% and 9% higher, respectively, than the comparable 2000 net earnings of \$236.4 million, or \$1.63 per share. Year to date sales for 2001 of \$2.86 billion were 4% higher than the \$2.75 billion reported in 2000.

H. Lawrence Culp, Jr., President and Chief Executive Officer, stated, "Despite the continuing softness in the industrial economy, we are able to report positive earnings growth. Net earnings for the quarter grew 5%, as a result of aggressive cost reduction and control. Third quarter sales performance in both business segments reflected the current weakness in the macro-economic environment. Process/Environmental Controls fell 7% while Tools and Components was down 11.5%. While we have great confidence in Danaher's long-term prospects, we will continue to maintain a strict cost focus while near term economic conditions remain uncertain."

Danaher Corporation is a leading manufacturer of Process/Environmental Controls and Tools and Components. (http://www.danaher.com/)

Statements in this release that are not strictly historical may be forward-looking statements, which involve risks and uncertainties. These include economic and currency conditions, market demand, pricing, and competitive and technological factors, among others, as set forth in the company's SEC filings.
