

## Danaher Reports Second Quarter 2016 Results

WASHINGTON, July 25, 2016 /PRNewswire/ -- Danaher Corporation (NYSE: DHR) today announced results for the second quarter 2016. For the quarter ended July 1, 2016, net earnings from continuing operations were \$656.7 million, or \$0.94 per diluted share on a GAAP basis, which represents a 5% year-over-year decrease. The results for the second quarter include the operations of Fortive Corporation ("Fortive"), which was spun-off to Danaher's shareholders on July 2, 2016.

Non-GAAP adjusted diluted net earnings per share from continuing operations for the second quarter 2016 was \$1.25 per share, which reflects the adjustments identified in the attached reconciliation schedule. This represents a 17% increase over the comparable 2015 amount.

For the second quarter 2016, revenues increased 16.5% year-over-year to \$5.8 billion, with core revenue growth of 2.0% (non-GAAP). Operating cash flow from continuing operations of \$2.1 billion was up 26% on the comparable 2015 amount.

For the third quarter 2016, the Company anticipates that GAAP diluted net earnings per share from continuing operations will be \$0.47 to \$0.51. Non-GAAP adjusted diluted net earnings per share from continuing operations is expected to be \$0.80 to \$0.84, reflecting the adjustments identified on the attached reconciliation schedule.

For the full year 2016, the Company anticipates GAAP diluted net earnings per share from continuing operations to be \$2.79 to \$2.86. Non-GAAP adjusted diluted net earnings per share from continuing operations is expected to be \$3.53 to \$3.60, reflecting the adjustments identified on the attached reconciliation schedule. Both the third quarter and full year 2016 guidance treat Fortive as a discontinued operation for the full year 2016.

Thomas P. Joyce, Jr., President and Chief Executive Officer, stated, "We were pleased with our performance in the second quarter. Our team continued to execute well in challenging economic conditions, delivering high-teens adjusted earnings per share growth, and strong operating and free cash flow from continuing operations in the quarter."

Joyce added, "We also successfully completed the spin-off of Fortive on July 2nd. Going forward, Danaher will be a diversified, multi-industry, science and technology company with the Danaher Business System continuing as our foundation and competitive advantage."

Danaher will discuss its results during its quarterly investor conference call today starting at 8:00 a.m. ET. The call and an accompanying slide presentation will be webcast on the "Investors" section of Danaher's website, [www.danaher.com](http://www.danaher.com), under the subheading "Events & Presentations." Core Revenue Growth

<u>Components of Revenue Growth</u>	Three Month Period Ended July 1, 2016 vs. Comparable 2015 Period	Six Month Period Ended July 1, 2016 vs. Comparable 2015 Period
	Core (non-GAAP) <sup>2</sup>	2.0 %
Acquisitions (non-GAAP)	15.0 %	15.5 %
Impact of currency translation (non-GAAP)	(0.5) %	(1.5) %
Total Revenue Growth from Continuing Operations (GAAP)	16.5 %	15.5 %

<sup>2</sup> We use the term "core revenue" to refer to GAAP revenue from continuing operations excluding (1) sales from acquired businesses recorded prior to the first anniversary of the acquisition less the amount of sales attributable to divested product lines not considered discontinued operations ("acquisition sales"), and (2) the impact of currency translation. The portion of GAAP revenue from continuing operations attributable to currency translation is calculated as the difference between (a) the period-to-period change in revenue(excluding acquisition sales) and (b) the period-to-period change in revenue (excluding acquisition sales) after applying current period foreign exchange rates to the prior year period. We use the term "core revenue growth" to refer to the measure of comparing current period core revenue with the corresponding period of the prior year.

#### Free Cash Flow

(\$ in millions)	Three Month Period Ended		Variance %
	July 1, 2016	July 3, 2015	
Operating Cash Flow Provided by Continuing Operations (GAAP)	\$ 1,281.8	\$ 1,101.3

Free Cash Flow (Non-GAAP)	\$ 1,097.9	\$ 965.1	14 %

#### Statement Regarding Non-GAAP Measures

Each of the non-GAAP measures set forth above should be considered in addition to, and not as a replacement for or superior to, the comparable GAAP measure, and may not be comparable to similarly titled measures reported by other companies. Management believes that these measures provide useful information to investors by offering additional ways of viewing Danaher Corporation's ("Danaher" or the "Company") results that, when reconciled to the corresponding GAAP measure, help our investors to:

- (with respect to the non-GAAP profitability measures) understand the long-term profitability trends of our business and compare our profitability to prior and future periods and to our peers;
- (with respect to the non-GAAP revenue measures) identify underlying growth trends in our business and compare our revenue performance with prior and future periods and to our peers; and
- (with respect to the non-GAAP cash flow measures) understand Danaher's ability to generate cash without external financings, strengthen its balance sheet, invest in its business and grow its business through acquisitions and other strategic opportunities (although a limitation of non-GAAP cash flow measures is that they do not take into account the Company's debt service requirements and other non-discretionary expenditures).

The items excluded from the non-GAAP profitability and revenue measures set forth above have been excluded for the following reasons:

- With respect to the non-GAAP profitability measures, we exclude the amortization of acquisition-related intangible assets because the amount and timing of such charges are significantly impacted by the timing, size, number and nature of the acquisitions we consummate. While we have a history of significant acquisition activity we do not acquire businesses on a predictable cycle, and the amount of an acquisition's purchase price allocated to intangible assets and related amortization term are unique to each acquisition and can vary significantly from acquisition to acquisition. We believe however that it is important for investors to understand that such intangible assets contribute to revenue generation and that intangible assets related to past acquisitions will recur in future periods until such intangible assets have been fully amortized. With respect to the other items excluded from the non-GAAP profitability measures, we exclude these items because they are of a nature and/or size that occur with inconsistent frequency, occur for reasons that may be unrelated to Danaher's commercial performance during the period and/or we believe are not indicative of Danaher's ongoing operating costs or gains in a given period. With respect to each of the items excluded from the non-GAAP profitability measures, we believe that such items may obscure underlying business trends and make comparisons of long-term performance difficult.
- With respect to the non-GAAP revenue measures, (1) we exclude the impact of currency translation because it is not under management's control, is subject to volatility and can obscure underlying business trends, and (2) we exclude the effect of acquisitions and divested product lines because the nature, size and number of such transactions can vary dramatically from period to period and between us and our peers, which we believe may obscure underlying business trends and make comparisons of long-term performance difficult.

The Company estimates the tax effect of the items excluded from the non-GAAP measures above, as applicable, by applying the Company's overall estimated effective tax rate to the pretax amount of each adjustment item, unless the nature of the item and/or the tax jurisdiction in which the item has been recorded requires application of a specific tax rate or tax treatment, in which case the tax effect of such item is estimated by applying such specific tax rate or tax treatment.
